

IPT (Indonesia Proficiency Test)

What is IPT?

Indonesian Proficiency Test is a comprehension test which assesses all aspects of Indonesian proficiency.

Test Components:

Listening, Reading, Usage oral Interview (optional), Essay writing (optional)

Listening

Measures ability to understand spoken Indonesian in various social contexts. The skills tested include listening for details, main idea, understanding intonation, functions of structures, etc.

Structure and Written Expression

Measures ability to recognize a range of Indonesian grammatical structures (language) appropriate for standard written Indonesian.

Reading

Measures ability to understand various types of reading material. The skills tested include scanning, skimming, identifying referents, using context to guess meaning, etc.

Oral Interview

Measures general oral language proficiency with respect to context and language function.
